

SKAATES
Family Chiropractic

Do you have health insurance? SKAATES Family Chiropractic is a contracted provider with all major health insurance companies. It is important to us that every patient we treat gets the most out of any health insurance benefits that are available to them.

Were you injured in an auto accident, or on the job? We've got you covered. We work with auto insurance companies, personal injury attorneys, and the Ohio Bureau of Workers' Compensation to make sure that our patients get the medical coverage they need.

Don't have insurance? No problem. We offer competitive pricing and affordable payment plans for patients who are paying for their health care out of pocket.
